Fact Sheet 1 – Introduction
Eco-efficiency is doing more with less

Fact Sheet 2 – Solvent management
Solvents – Don’t let your money evaporate before your eyes

Fact Sheet 3 – Lighting
Lighting – Bright ideas to save money!

Fact Sheet 4 – Water efficiency – Part I
Water efficiency – Wasted water is money down the drain

Fact Sheet 5 – Water efficiency – Part II
Water efficiency – Wasted water is money down the drain

Fact Sheet 6 – Spray painting
Efficient painting – Are you getting good coverage for your money?

Fact Sheet 7 – Compressed air
Compressed air – It’s not just hot air, it’s your money!

Fact Sheet 8 – Solid waste management
Don’t throw your money away – Recycle

Fact Sheet 9 – Implementing eco-efficiency
Making eco-efficiency happen – Skills and strategies

Fact Sheet 10 – Lean manufacturing
Lean manufacturing – Time to think lean!

Fact Sheet 11 – Digital manufacturing
Digital manufacturing – Saving money by design

Fact Sheet 12 – Welding
Red hot savings – Eco-efficient welding

Fact Sheet 13 – Fibre composite manufacturing
– Part I – open moulding
Good operating practice and alternative materials

Fact Sheet 14 – Fibre composite manufacturing
– Part II – closed moulding
Resin infusion and vacuum bagging

Fact Sheet 15 – Motors
Motors – You have the power to save!

Fact Sheet 16 – Abrasive blasting
Smooth operators blast better!

Fact Sheet 17 – Environmental Management Systems – Part I
An environmental management system – Why would you?

Fact Sheet 18 – Environmental Management Systems – Part II
An environmental management system – Where to start?

Fact Sheet 19 – Legislation
Environmental legislation affecting the Queensland marine industry

Fact Sheet 20 – Good environmental practice at marinas
Keeping marinas clean and green
Prepared by:
The UNEP Working Group for Cleaner Production
Robert Pagan, Chaim Kolominskas, Nicole Price and Penny Prasad
Environment Management Centre, The University of Queensland

Acknowledgements

Marine Queensland, the Department of Tourism, Regional Development and Industry (DTRDI) and the UNEP Working Group for Cleaner Production are grateful to the following individuals for their participation in this project.

Steering committee
Barry Hibberd  Marine Queensland
Jeff Smith  Mackay Marina Village
Tony Riek  Riviera Group
Trent Gay  Gold Coast City Marina
Matt Tynan  Aluminium Marine Pty Ltd
John Postle  Kevlacat Power Boats Australia
Steve Fisher  Southport Yacht Club/Gold Coast City Marina
Bob Pagan  UNEP Working Group for Cleaner Production
Chaim Kolominskas  UNEP Working Group for Cleaner Production
Nicole Price  UNEP Working Group for Cleaner Production
Penny Prasad  UNEP Working Group for Cleaner Production
Glenn Seaby  QMI Solutions
Geoff Cooke  DTRDI – Marine Industries and Fibre Composites Group
Ken McKeon  DTRDI – Marine Industries and Fibre Composites Group
Mark Allan  DTRDI – Marine Industries and Fibre Composites Group
Alastair Pilbeam  Qld EPA – Sustainable Industries Division

External review and case study development
Andrew Stewart  Intelog
Christian Uhrig  Clearmake Pty Ltd
Andrew Marcer  Concentric Asia Pacific
Gary Kane  Qld Environmental Protection Agency
Guy Sinclair  Gold Coast Institute of Tafe
Jeff Smith  Mackay Marina Village
Jan Mulqueen  Southport Yacht Club
Julie Lockyer  DTRDI
Kevin Brown  Riviera
Mark Taylor  Brisbane City Council
Mat Caniffe  Superior Plastech
Patrick Stewart  Gold Coast City Council
Peter Hill  Telwater
Peter Luke  East Coast Yacht Finishing

Peter Schwarzel  Perry Catamarans
Robbie Williams  Port of Gladstone
Rohan Tink  QMI Solutions
Steve Newbury  East Coast Marina
Todd Henry  DIAB
