

Business Sustainability Modules

Awareness Days & Events – World Environment Day

Some ideas for the office

- Organise a World Environment Day morning or afternoon tea e.g., home or locally grown, locally sourced, organic, fair trade, plastic free etc.
- Host a World Environment Day lunch e.g., pub quiz about sustainability, guest speaker from a local action group, sustainability debate.
- Organise an after-work World Environment Day movie screening with popcorn and drinks. Choose an environmental or social topic that will resonate with your staff.
- Raise money to donate to a local environmental group e.g., raffle, cupcake stall
- Arrange a best nature shot photo competition.
- Organise a walk or sporting match in the closest park or natural environment
- Start an office garden on the roof top, along window sills or pot plants around the office. If you have an outside area consider starting a bee hive or compost system/worm farm.
- Organise for staff to volunteer some hours to a local cause.
- Get staff to pledge to do one thing around the office more sustainability e.g., post pledges and photos on social media or create a pledge board in the lunchroom.
- Run a challenge for the week e.g., no disposable coffee cups, bring in waste-free home packed lunches, going car or paper free, or turning off monitors at the end of the day.
